

About DMLO CPAs

Rather than seeking rapid growth with a goal of becoming one of the largest firms in the nation, we are focused on being the best in our region, in ways that really matter, not just size or profit. Much of our energy is directed toward creating a culture where people feel valued, heard, and can answer the question 'why?' and in making a real difference in the lives of our clients and the community. We want you to choose us not only because of what we do, but because you share the vision of why we do it.

- We are a *Louisville original*, founded in 1975 by Joel Deming, Bill Malone, John Livesay and Armand Ostroff. The order of our firm name was chosen the way post positions are chosen in the Kentucky Derby; the group was relieved when it did not result in the initials MOLD!
- With 12 Directors, almost 50 CPAs and 90+ total employees, DMLO CPAs is one of the top Louisville accounting firms, according to the Accounting Firms List published by *Business First*.
- Our services include assurance (audits/reviews/agreed-upon-procedures/employee benefit plan audits/Medicaid cost reports), outsourced accounting services, business and personal tax and tax planning, startup ventures and emerging business guidance, estates and trusts, wealth advisory services, cost segregation analysis, business valuations, litigation support, and forensic accounting.
- Industry niches include manufacturing and distribution, construction, real estate, hospitality, long-term care, not-for-profit organizations, service businesses, medical/dental practices, and financial institutions/credit unions.
- DMLO is a highly engaged member of BKR International, a top 10 global association representing the combined strength of 160+ independent accounting firms in over 500 offices in 80 countries.
- Our firm is the source of leaders in our industry and in our community. Our professionals serve on the KyCPA Board and on numerous committees. They volunteer as board and committee members, often in an officer role, for numerous not-for-profits, and for national organizations.
- DMLO has been recognized nationally multiple times with the *When Work Works* Award for excellence in workplace effectiveness and flexibility.
- #DMLOCares is such a part of our culture that we've been honored multiple times by Business First as one of the top ten Louisville Partners in Philanthropy among medium-size companies.
